

Junior Scientists: All About Animals

Do you know what mammal is the largest on Earth? Or how a caterpillar becomes a butterfly? In this program, we invite your little zoologist to analyze the differences between vertebrates and invertebrates, construct their way through the butterfly and frog life cycles, build reptiles, and examine the differences and similarities between insects and arachnids using Kid K'NEX® pieces. Your child will be too busy exploring the animal world to realize that they are gaining critical social, motor, and developmental skills.

Wednesdays: Sep 14th - Oct 19th
Time: 3:15 pm - 4:00 pm
Ages: PreK 4's and 4/5 T
Price: \$90 - 6-Weeks

WHERE:
LCC Day School
